

About CommNet International

Your Premier IT Solutions Provider

Since 1986 **CommNet International** has provided Technology Solutions to businesses throughout the Tri-State Area. CommNet's expertise to help your business is focused in 4 areas:

1. **Project Services** – Computer and Network Systems Installations, Upgrades and Conversions
2. **Managed Services** – Support, Monitor, and Manage your IT systems to ensure your people are productive, your systems are available, and your critical data is secure
3. **Computer products** at competitive prices – Servers, Notebooks, PCs, Software, LAN/WAN, etc.
4. **Management** of distributed computers used by Sales and Field Service forces

Our mission is to deliver superior innovative solutions, and more importantly, the best service and support in the industry. As an **ISO** certified organization, we have developed critical methods and procedures geared toward maintaining, securing, and enhancing your organization's largest investments. . . **your people and your data.**

Our long-term relationships with dozens of accounts in a wide range of industries demonstrate our commitment to customer satisfaction and technical excellence.

CommNet, a leader in Managed Services!

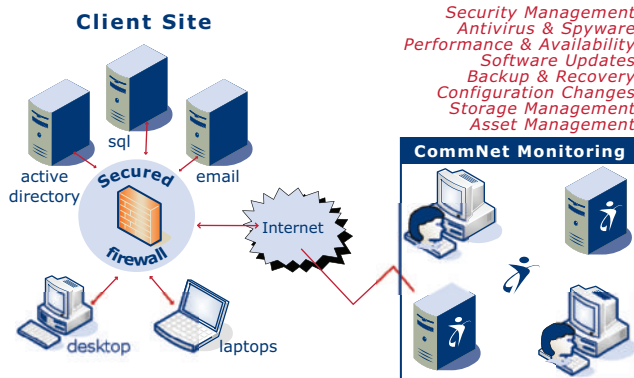

Managed Services Overview

CommNet International offers an IT Managed Services Program which focuses on increasing employee productivity and securing your company's confidential data, through the 24x7 Management of your Computer Systems and Network.

Why Organizations like **YOURS** employ CommNet's IT Managed Services

You are a business leader who understands the importance of employee productivity as a competitive advantage. You are an IT Manager buried under an ever-growing maintenance task list, which requires long hours, and rarely leaves time for more strategic projects. These are reasons some of our Customers chose CommNet to manage their Computer networks:

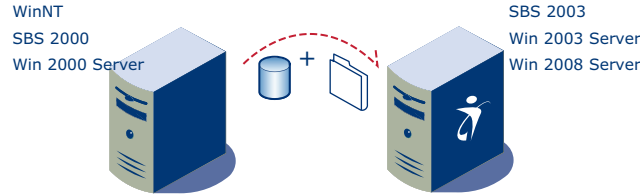

- You are an organization with limited IT Staff
- You have non-technical staff performing technology tasks
- Your IT provider/Independent Contractor is neither responsive nor proactively supporting your technology
- Your current IT provider/Independent Contractor lacks the skill set needed to provide network & data resiliency
- You require local support
- Network Management Tools are cost prohibitive

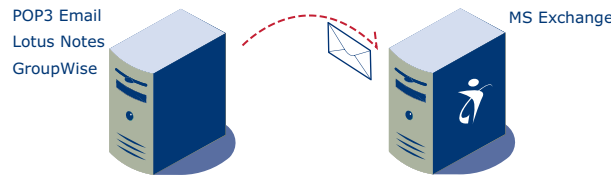

CommNet's **IT Managed Services Suite** is the management of your network, both remote and onsite, 24 hours a day, 7 days a week!

Services to Fit into any Project Plan!

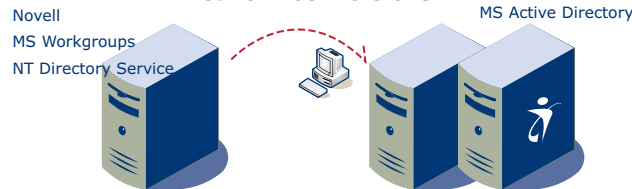

Server Migrations

E-mail Conversions

Network Conversions

Also available through CommNet,

- Security Audits, Installations & Upgrades
- Spam, Spyware & Malware Solutions
- Backup & Recovery Implementations
