

How IT Gets Done!

- Are your Mobile or Remote employees left to fend for themselves?
- Are there ways to increase their productivity?
- Do your existing Patch Management and software distribution tools work well for your mobile users?
- Are your Mobile users a Security Risk?

Solutions for the Mobile Employee

CommNet International focuses on the mobile worker. We provide a full array of services to assist in keeping them productive and protecting your corporate security environment. Through our Virtual Seat ManagementSM (VSM) Service, CommNet provides a Total Lifecycle Management solution for portable, mobile, remote and desktop computers.

- Are they protected with current anti-Virus, anti-Spyware and Patch updates?
Our Managed Services can make this problem disappear!
- Network Access Restrictions

Should access be denied to the company network if their mobile computer is not current with security patches and policies? Our agent-based services will authenticate, validate, and remediate prior to allowing network access through your corporate VPN.

- Complete Asset Tracking and Management Tools

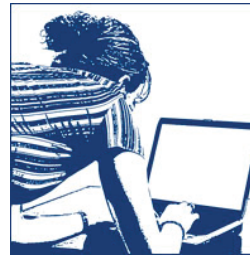

Know what you have, Who is using it & What is running on it. Search, drill down, and report through a secure customized Web Portal.

- Hot Spare programs

We can ship a preconfigured replacement computer overnight if their computer is broken, lost, or stolen.

- Disaster Recovery

In the event their computer crashes and they get that empty feeling, don't despair. CommNet provides the capability to automate the backup, encryption and

storage of enterprise critical files to our secure storage facility. This allows for rapid and reliable restoration, getting them back to business.

- Help Desk available 24 X 7
Over 85% problems are resolved on the first call.
- Asset Procurement & Warehousing Services
We can maintain your inventory at our secure warehouse.
- All major brands of PC's, Laptops and other mobile devices are available.

CommNet International has been meeting the enterprise computing challenges of companies just like yours since 1986. For more information on our products and services, please contact us at **1-800-345-8988**, sales@commnetinternational.com, or visit our web site at <http://www.commnetinternational.com>

Testimonial

Peco Energy

PECO Energy Company and our sister company, Commonwealth Edison (ComEd) have been very pleased with both CommNet's VSM products and wonderful service that has been provided in order to satisfy our software distribution, asset management and version control needs. In particular, I would like to personally thank you for services rendered during our Common Customer System (CCS) deployment in October, 2006, which involved a migration of mission critical customer and workforce management systems that was completed on schedule and with minimal impact to our field technicians. Incidentally, that project eventually won a prestigious industry award for its success. That success was in no small part due to the CommNet tools, your flexibility and relentless commitment to our needs.

Sincerely,

*Gary Missan
